LANGUAGES USED

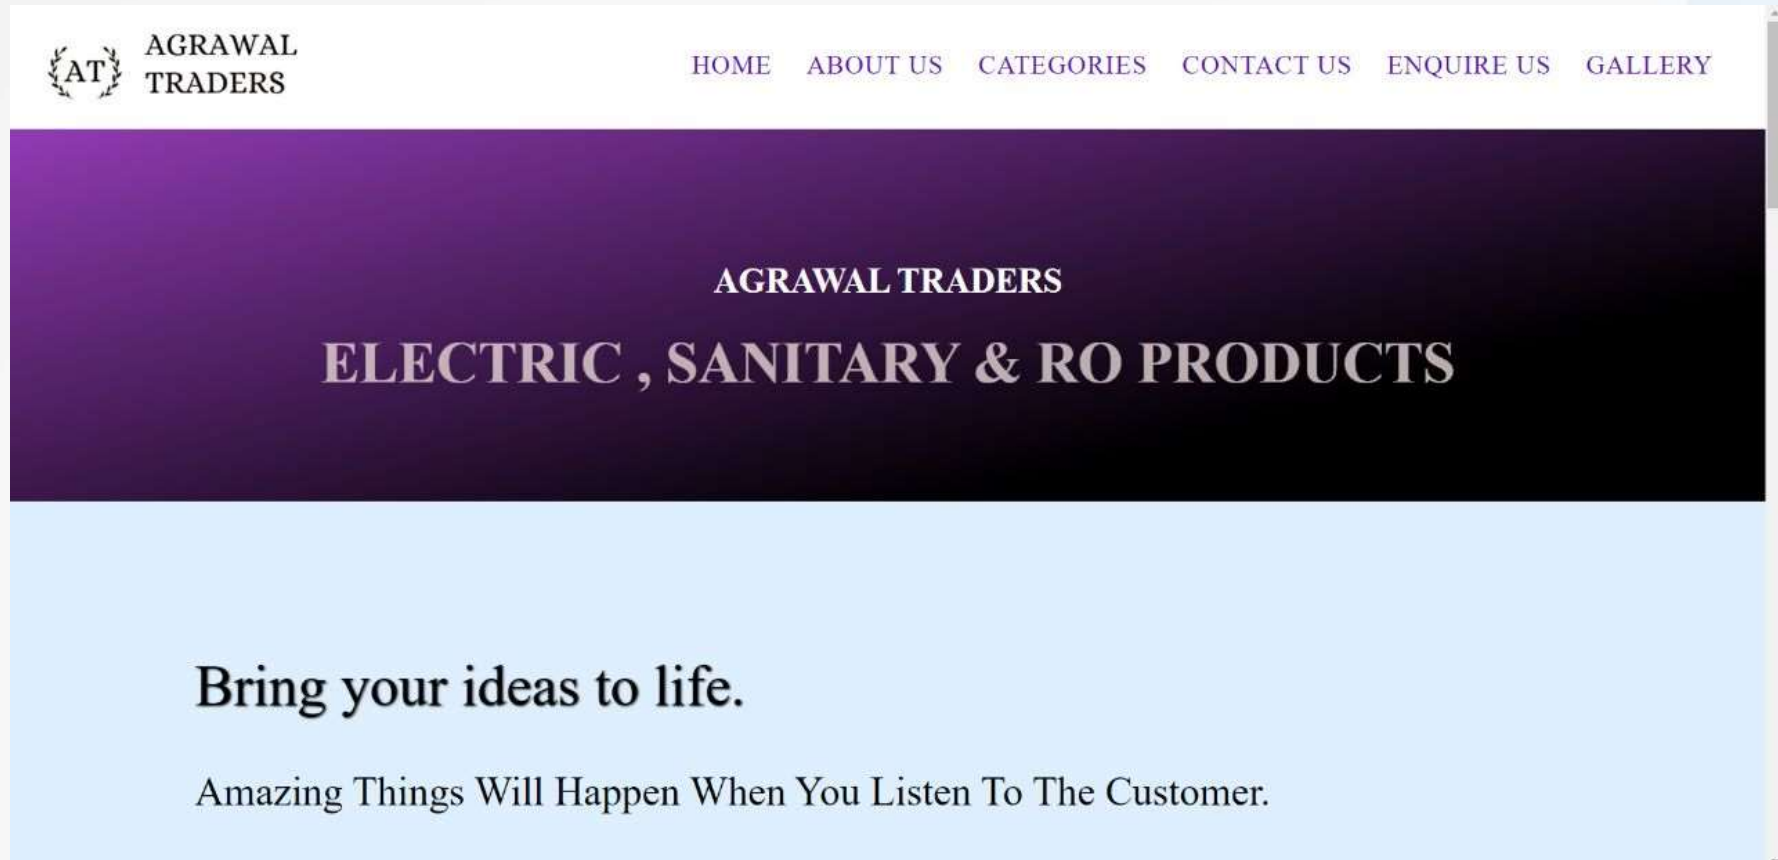

- **HTML**- HTML stands for Hypertext Markup Language. It is used for creating web page and web applications.
- **CSS**- CSS Stand for Cascading Style Sheets. It is a Style Sheet language which is used to describe the look and formatting of a document written in markup language.
- **JAVASCRIPT**- JavaScript is a scripting or programming language that allows you to implement complex features on web pages — every time a web page does more than just sit there and display static information for you to look at — displaying timely content updates, interactive maps, animated 2D/3D graphics, scrolling video jukeboxes, etc.
- **FireBase**- Google Firebase is a Google-backed application development software that enables developers to develop iOS, Android and Web apps. Firebase provides tools for tracking analytics, reporting and fixing app crashes, creating marketing and product experiment.

About Us

NAME OF CEO :- Man Mohan Agrawal
YEAR OF ESTABLISHMENT :- 1999
NATURE OF BUSINESS :- Dealer & Supplier
EMAIL :- agrawal.traders.mathura@gmail.com
PHONE :- +91-9897057259

A.T.:-

We set up a showroom in 1999 to promote our family business and devoted our life in growing the business. The firm is now recognized all over the region for its quality, and valued products and services.

It is a quality centric firm and one of the most prominent Traders, and Suppliers of a wide range of articles like electric , sanitary and RO units..

Agrawal Traders has become a well-reckered name in the domestic market. The major factors that have contributed towards the success of the company are ethical business practices.
